

NORTH Metal and Chemical Co.

1. Company Identification and Product Hazard Overview:

Product Name : Diethylhydroxylamine
Synonyms : DEHA, 85% Solution
Recommended Use : Used as an oxygen scavenger in boiler systems; a resin remover and bleach for timber; a anti-discolorant for phenolic compounds; and, as a hardener for silicone rubber and sealants.
Manufactured for : **NORTH Metal and Chemical Company**
P. O. Box 1985 609 E. King St.
York, PA USA 17405 York, PA USA 17403
Tel: 717-845-8646 Fax: 717-846-7350
Email: north@northmetal.net Website: www.northmetal.net

In Case of Emergency: Call CHEMTREC (24H): 1-800-424-9300

2. Hazard Identification:

GHS Classification:

Flammable Liquids (Category 3)
Acute Toxicity, Inhalation (Category 4)
Acute Toxicity, Dermal (Category 4)
Skin Irritation (Category 2)
Eye Irritation (Category 2A)

Signal Word: WARNING

Pictograms: Flammable, Acute Toxicity

Hazard Statements:

H226 : Flammable liquid and vapor
H312 + H332 : Harmful if in contact with skin or inhaled
H315 : Causes skin irritation
H319 : Causes serious eye irritation

Precautionary Statements:

Prevention:

P210 : Keep away from heat/sparks/open flames/hot surfaces - No smoking
P233 : Keep container tightly closed
P240 : Ground/Bond container and receiving equipment
P241 : Use explosion-proof electrical/ventilating/lighting equipment
P242 : Use only non-sparking tools

2. Hazard Identification:

Precautionary Statements:

P243	: Take precautionary measures against static discharge
P261	: Avoid breathing dust/fume/gas/mist/vapors/spray
P264	: Wash contact area thoroughly after handling
P271	: Use only outdoors or in a well-ventilated area
P280	: Wear protective gloves/protective clothing/eye protection/face protection.
P281	: Use personal protective equipment as required
P303 + P361 +P353	: IF ON SKIN or hair: Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower
P333 + P313	: IF skin irritation or rash occurs: Get medical advice/attention.
P305 + P351 + P338	: IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P312	: Call a POISON CENTER or doctor/physician if you feel unwell
P301 + P330 + P331	: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting
P304 + P340	: IF INHALED: Remove person to fresh air and keep in position comfortable for breathing
P332 + P313	: If skin irritation occurs: Get medical advice/attention
P337 + P313	: If eye irritation persists: Get medical advice/attention
P362	: Take off all contaminated clothing and wash before reuse
P370 + P378	: In case of fire: Use dry sand, dry chemical or alcohol-resistant foam for extinction.
P403 + P235	: Store in a well-ventilated place. Keep cool.
P501	: Dispose of contents/container in accordance with local/state/federal regulations.

3. Composition/Information on Ingredient:

Chemical Name	: Diethylhydroxylamine
Chemical Family	: Amines
Chemical Formula	: C ₄ H ₁₁ NO

Substance:	CAS Number:	EC	Compo. (%)
Diethylhydroxylamine	3710-84-7	223-055-4	85%
Water	7732-18-5		15%

4. First Aid Measures:

- General Advice:** : Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.
- Eyes** : Flush skin with running water for at least fifteen minutes. Remove any contact lenses. Get medical aid/attention immediately. Continue to rinse eyes during transport to the hospital.
- Skin** : Remove contaminated clothing. Wash skin with plenty of running water and soap. Take victim immediately to the hospital. Consult a physician.
- Ingestion** : If the product is swallowed, first rinse mouth. Give small amount of water to drink. Call doctor/physician/poison center immediately. Do not induce vomiting. Never give anything by mouth to an unconscious person. If a person vomits, place him/her in recovery position so the vomit does not enter lungs.
- Inhalation** : If safe to do so, remove individual from further exposure. Keep warm and at rest. If breathing has ceased, give artificial respiration. Do not give mouth to mouth resuscitation. Get medical attention/consult a physician immediately.
- Note to Physician** : Treat symptomatically.
- PPE for first responders** : Gloves and safety goggles are highly recommended.

5. Fire Fighting Measures:

- Flash Point (°C)** : 45 °C (113 °F) - closed cup
- Flammable Limits** : Upper explosion limit: 10% (V); Lower explosion limit: 1.9% (V)
- Auto ignition Temp.** : Not available.
- Flammable Class** : Not available.
- General Hazard** : Evacuate personnel downwind in-order to avoid inhalation of irritating and/or harmful fumes and smoke.
- Extinguishing Media** : For small (incipient) fires, use media such as “alcohol” foam, dry chemical, or carbon dioxide. For large fires, apply water from as far as possible. Use large quantities (flooding) of water applied as a mist or spray; solid streams of water may be ineffective. Cool all affected containers with flooding quantities of water.
- Special hazards arising from the substance** : Carbon oxides, Nitrogen Oxides (NOx)
- Fire Fighting Procedures:** Hazardous decomposition and combustion products such as carbon/nitrogen oxides can be formed if product is burning. Cool exposed containers with water spray to prevent over heating.
- Fire Fighting Equipment:** Respiratory and eye protection are required for fire fighting personnel. Full protective equipment (bunker gear) and self-contained breathing apparatus (SCBA) should be used for all indoor fires and any significant outdoor fires. Evacuate area and fight fire from safe distance or a protected location. Move fire-exposed containers, if allowable without sacrificing the safety of the firefighters. If possible, firefighters should control run-off water to prevent environmental contamination.

6. Accidental Release Measures:

- Protective Gear for Personnel** : Wear respiratory protection. Avoid breathing vapors, mist, or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.
- Environmental Precaution** : Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.
- Methods and materials for containment and cleaning up** : Contain spillage, and then collect with an electronically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations.
- Release Notes** : If spill could potentially enter any waterway, including intermittent dry creeks, contact local authorities.

7. Handling and Storage:

- Handling** : Avoid contact with skin and eyes. Avoid inhalation of vapor or mist. Keep away from sources of ignition. No smoking. Take measures to prevent the build up of electrostatic charge.
- Storage** : Store in a cool, dry well-ventilated area. Keep containers closed and up right when not in use. Keep product isolated from incompatible materials/conditions

8. Exposure Controls and Personal Protection:

- Engineering Controls** : Use appropriate engineering controls to avoid contact with skin, eyes, and clothing. Wash hands before breaks and immediately after handling the product.

Personal Protective Equipment:

Eyes and face: Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH.

Skin: Avoid direct contact with skin. Wear rubber gloves, apron, boots or whole bodysuit when handling this product. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of any contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Body Protection: Complete suit protecting against chemicals; flame retardant anti-static protective clothing. The type of protective equipment must be selected according to the concentration and amount of dangerous substance at the specific work place.

Respiratory: Where risk assessment shows air-purifying respirators are appropriate, use full-face respirator with multi-purpose combination respirator cartridges as a back up to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH.

- Work Hygienic Practices:** Facilities storing or using this material should be equipped with emergency eyewash, and a safety shower. Good personal hygiene practices should always be followed.

Control of Environmental Exposure

: Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

9. Chemical and Physical Properties:

Appearance	: Liquid	Lower Explosive Limit	: 1.9% (V)
Odor	: Not available	Upper Explosive Limit	: 10% (V)
Odor threshold	: Not available	Vapor Pressure	: 133 hPa (100 mmHg) @ 81.5°C
Color	: Light yellow	Vapor Density	: 3.08 - (Air = 1.0)
pH (1% Solution)	: 9.5 - 11.0	Relative Density	: 0.902 g/cm ³ @ 25°C
Melting Point	: > -25°C (-13°F)	Solubility	: 35% @ 20°C
Freezing Point	: < -25°C	Partition coefficient (n-octanol/water)	: log POW: 0.43
Boiling Range	: 125 -130 °C (257-266°F)	Auto Ignition Temp.	: Not available
Flash Point	: 46°C (114.8°F) - closed cup	Molecular Weight	: 89.14 g/mol
Viscosity @ 20 °C	: Not available		
Decomposition Temp.	: Not available		
Evaporation Rate	: Not available		

10. Stability and Reactivity:

Stability : The product is stable under recommended storage conditions.

Possibility of Hazardous Reactions : No data available

Hazardous Decomposition Products : No data available

Incompatible Materials : Strong oxidizing agents, Strong acids. Do not store near acids.

Conditions to Avoid : Heat, flames, sparks

11. Toxicological Information:

Acute Toxicity Data:

LD50 Oral - Rat - 2,190 mg/kg

LC50 Inhalation - Rat - 4h - 3140 ppm

LD50 Dermal - Rabbit - 1,300 mg/kg

Skin corrosion/irritation:

Skin - Rabbit

Result: Mild skin irritation

Skin - Rabbit

Result: Skin irritation - 24h

Serious eye damage/eye irritation:

No data available

Respiratory or skin sensitization:

No data available

Germ cell mutagenicity:

Human

Leukocyte

Unscheduled DNA synthesis

Rat - Dominant lethal test

Carcinogenicity:

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as a probable, possible, or confirmed human carcinogen by IARC

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a probable, possible, or confirmed human carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a probable, possible, or confirmed human carcinogen by OSHA.

11. Toxicological Information:

Reproductive Toxicity

No data available

Rat - Parenteral - Effects on fertility: Pre-implantation mortality (e.g. reduction in number of implants per female; total number of implants per corpora lutea)

Rat - Parenteral - Effects on fertility: Post-implantation mortality (e.g. deam and/or resorbed implants per total number of implants)

No data available

Specific target organ toxicity - single exposure:

No data available

Specific target organ toxicity - repeated exposure:

No data available

Aspiration Hazard:

No data available

Additional Information:

RTECS: NC3500000

Incoordination., Mydriasis., To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly been investigated.

12. Ecological Information:

All work practices must be aimed at eliminating environmental contamination.

Toxicity

Toxicity to fish: No data available

Toxicity to daphnia and other aquatic invertebrates:

EC50 - Daphnia magna (Water flea) - 110.5 mg/l - 48h

Toxicity to algae: No data available

Biodegradability: Result: 17% - not readily biodegradable

Bioaccumulative Potential:

No data available

Mobility in soil: No data available

Results of PBT and vPvB assessment:

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

Other Adverse effects: An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. Harmful to aquatic life.

13. Disposal Considerations:

Disposal Method : Dispose of waste at an appropriate waste disposal facility according to current applicable laws and regulations.

For Large Spills : Contain material and call local authorities for emergency assistance.

Product Disposal : Dispose of at a supervised incineration facility or an appropriate waste disposal facility according to current applicable local, state and federal laws, regulations and product characteristics at time of disposal.

Empty Container : Contaminated container should be labeled and disposed in accordance to local, state and federal laws and regulations.

General Comments : Refer to section 6, accidental release measures for additional information.

14. Transport Information:

Regulatory Information	UN No.	Proper Shipping Name	UN Class	Packing Group	Labels
US DOT	1993	Flammable Liquid, N.O.S. (Diethylhydroxylamine)	3	III	Flammable Sticker
IMDG	1993	Flammable Liquid, N.O.S. (Diethylhydroxylamine)	3	III	Flammable Sticker
IATA	1993	Flammable Liquid, N.O.S. (Diethylhydroxylamine)	3	III	Flammable Sticker

15. Regulatory Information:

U.S. Federal Regulations:

SARA 302 Components: No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

SARA 313 Components: This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313

SARA 311/312: Fire Hazard, Acute Health Hazard,

Massachusetts Right to know Components: No components are subject to the Massachusetts Right to Know Act

Pennsylvania Right to know Components: Diethylhydroxylamine CAS No. 3710-84-7

New Jersey Right to know Components: Diethylhydroxylamine CAS No. 3710-84-7

California Proposition 65 Components: This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any other reproductive harm.

WHMIS Canada: B3 Combustible Liquid; D2B Toxic Materials

OSHA Hazcom Standard Rating: This material is classified as Hazardous under Federal OSHA regulation Combustible liquid irritant.

CERCLA: This product has the following CERCLA/SARA TPQ and RQ: DEHA contains a small impurity of < 1% Diethylamine which has an RQ of 100lbs.

US Toxic Substances Control Act: Listed on the TSCA inventory

16. Other Information:

HMIS: Hazardous Materials Identification System

Numeric Scale for Health (Blue), Flammability (Red), and Physical Hazard (Yellow):

HMIS Rating:*		RATING	HEALTH	FIRE HAZARD	PHYSICAL HAZARD
HEALTH	2	0	No significant risk to health	Will not burn	Product stable under ambient temperature and condition.
FLAMMABILITY	2	1	Can cause irritation or minor reversible injury.	Must be preheated to burn	Product can become unstable at high temperatures and pressures.
PHYSICAL HAZARD	0	2	Can cause temporary or residual injury	Ignites when moderately heated	Product can become unstable and cause violent chemical reaction at normal pressures and temperatures
PERSONAL PROTECTION	C	3	Can cause serious injury	Ignition occurs at normal temperature	Product capable of forming explosive mixtures and is capable of detonation in presence of strong initi-
		4	Can be lethal from single or repeated exposure.	Extremely flammable	Product is highly explosive and unstable. Exothermic reactions possible with decomposition, polymerization, reaction with water or self reaction

Personal Protection Code C: Gloves + Safety Goggles + Chemical Apron

16. Other Information, continued:

NFPA: National Fire Protection Association

Numeric Scale for Health (Blue), Fire Hazard (Red), and Reactivity (Yellow):
Special (White)

NFPA Rating:*

RATING	HEALTH	FIRE HAZARD	REACTIVITY
0	Minimal Hazard	Will not burn	Normally Stable
1	Can cause significant irritation	Must be preheated to burn	Unstable at high temperatures
2	Can cause temporary incapacitation or residual injury	Ignites when moderately heated	Normally unstable. Can readily go under violent chemical reaction but do not detonate.
3	Can cause permanent injury.	Ignition occurs at normal temperature	Capable of detonation, or of explosive reaction, but requires a strong ignition source.
4	Can be lethal.	Extremely flammable	May explode at normal temperatures and pressures
