4. First Aid Measures:

General Advice: Contact a Poison Control Center or a doctor if symptoms develop.

Inhalation: Remove individual from further exposure. Seek medical attention if effects persists.

Skin contact: Flush skin with plenty of running water. Remove contaminated clothing. Get medical attention if irritation occurs

Eye contact: Flush with running water for at least fifteen minutes, periodically lifting upper and lower eyelids. Remove any contact lenses if safe to do so. Get medical attention immediately.

Ingestion: If the product is swallowed, rinse mouth with large quantities of water and call doctor/poison center immediately. Drink plenty of water. Do not induce vomiting. Never give anything by mouth to an unconscious person.

Treat Systematically

5. Fire Fighting Measures:

General Hazard: Not combustible.

Suitable Extinguishing Media: Not combustible, however, if material is involved in a fire use: Fine water spray, normal foam, dry agent (carbon dioxide, dry chemical powder).

Specific Hazards arising from the substance or mixture:

Decomposition Products include: Carbon Monoxide, carbon dioxide, phosphorous oxides

Special protective equipment and precautions for fire-fighters:

Decomposes on heating emitting toxic fumes. Fire fighters to wear self-contained breathing apparatus and suitable protective clothing if risk of exposure to products of decomposition.

6. Accidental Release Measures:

Emergency procedures/Environmental precautions:

If contamination of sewers or waterways has occurred advise local emergency services.

Personal precautions/Protective equipment/Methods and materials for containment and cleaning up:

Slippery when spilt. Avoid accidents, clean up immediately. Contain/prevent run off from entering drains and waterways. Use absorbent (soil, sand or other inert material). Collect and seal in properly labelled containers or drums for disposal. Wash area down with excess water.

7. Handling and Storage:

Precautions for safe handling:

Avoid skin and eye contact and breathing in vapor, mists and aerosols.

Conditions for safe storage, including any incompatibilities:

Store in a cool, dry, well ventilated place and out of direct sunlight. Store away from incompatible materials described in Section 10. Do not store in metal containers. Keep containers closed when not in use - check regularly for leaks

8. Exposure Controls and Personal Protection:

Control Parameters: No value assigned for this specific material.

Appropriate engineering controls:

Natural ventilation should be adequate under normal use conditions. Keep containers closed when not in use.

Individual protection measures, such as Personal Protective Equipment (PPE):

The selection of PPE is dependent on a detailed risk assessment. The risk assessment should consider the work situation, the physical form of the chemical, the handling methods, and environmental factors.

Wear safety glasses and impervious gloves.

Always wash hands before smoking, eating, drinking or using the toilet.

If determined by a risk assessment an inhalation risk exists, wear a suitable mist respirator meeting standard requirements.
