

Technical Data Sheet

NorthQuest 2000

NorthQuest 2000 is a low molecular weight Carboxylate Sulphonate Copolymer. NQ2000 shows optimal scale-inhibition efficiency through solubility enhancement by threshold effect, crystal modification, and higher dispersing activity. It is designed to provide superior stabilization of Calcium Phosphate and demonstrates excellent stabilization of Zinc and Calcium Carbonate. This product also works as a strong dispersant, holding silt and other suspended solids in suspension and prevents fouling. This product is widely used in cooling-water systems. CAS# 40623-75-4

Technical Sp	oecifications: Co	polymer of Acrylic Acid
---------------------	-------------------	-------------------------

Appearance	Light Amber Liquid
Solids Content, %	42.5 - 452.5
pH (1% solution)	3.0 - 5.0
Specific Gravity @ 25°C	1.180 - 1.250
Acid Value (mg NaOH/g)	100 - 200
Viscosity, cPs @ 25°C	100 - 600
Color, APHA	55 max
Molecular Weight	4500
Molecular weight	4300

NorthQuest 2000 L **Technical Data Shee**

Polymers

Packaging: Available in 529lb drums and 2646lb totes. Small packs available by request.

Storage: Store in a cool, dry area. Keep containers closed when not in use.

Shelf Life: At least three years if properly stored in unopened container. **Safety:** Use caution while handling and avoid contact with eyes. Refer to MSDS for specific information.

The information contained herein is based on the data available to us and is believed to be accurate as of the date prepared however, North Metal & Chemical Co. makes no warranty, expressed or implied regarding the accuracy of these data or the results to be obtained from the use thereof.
