

NORTH Metal and Chemical Co.

1. Company Identification and Product Hazard Overview:

: North Quest 2055; Co-polymer of acrylic acid **Product Name**

Synonyms

Recommended Use : Used as a scale inhibitor and dispersing agent in industrial water treatment programs

Manufactured for : NORTH Metal and Chemical Company

609 E. King St. P. O. Box 1985 York, PA USA 17405 York, PA USA 17403 Tel: 717-845-8646 Fax: 717-846-7350

Email: north@northmetal.net Website: www.northmetal.net

In Case of Emergency: Call CHEMTREC (24H): 1-800-424-9300

2. Hazard Identification:

GHS Classification:

Acute Toxicity, Oral (Category 5) Acute Toxicity, Inhalation (Category 5) Acute Toxicity, Dermal (Category 2) Eye Damage/Irritation (Category 2A)

Signal Word: WARNING Pictograms: Acute Toxicity

Hazard Statements:

H303 : May be harmful if swallowed H333 : May be harmful is inhaled H315 : Causes skin irritation H319 : Causes serious eye irritation

Precautionary Statements:

P264 : Wash contact area thoroughly after handling Do not get into eyes, on skin, or on clothing. P262

P272 Contaminated clothing should not be allowed out of the workplace. P280 Wear protective gloves/protective clothing/eye protection/face protection.

P303 + P361 +P353 : IF ON SKIN or hair: Remove/Take off immediately all contaminated clothing. Rinse skin with

water/ shower

P305 + P351 + P338 : IF IN EYES: rinse cautiously with water for several minutes. Remove contact lenses, if present

and easy to do. Continue rinsing.

P301 + P330 + P331 : IF SWALLOWED: Rinse mouth. Do NOT induce vomiting

P304 + P340 + P310 : IF INHALED: Remove person to fresh air and keep in position comfortable for breathing

: Call a POISON CENTER or doctor/physician if feeling unwell P312 P403 + P235: Store in a well-ventilated place. Keep cool.

P270

Do not eat, drink, or smoke when using this product

P370 + P380 + P375In case of fire: Evacuate area. Fight fire remotely due to the risk of explosion.

P381 : Eliminate all ignition sources if safe to do so.

P360 : Rinse immediately contaminated clothing and skin with plenty of water before removing

clothes

P273 + P405: Avoid release to the environment. Store Locked Up.

P501 : Dispose of contents/container in accordance with local/state/federal regulations.

3. Composition/Information on Ingredient:

Chemical Name : North Quest 2055; 2-Propenoic acid, homopolymer,

Chemical Family : Homopolymer Chemical Formula : Not applicable

Substance:	CAS Number:	Hazard	Compo. (%)
2-Propenoic acid, homopolymer	9003-06-9	See section 2	Proprietary
Water	7732-18-5		Proprietary

4. First Aid Measures:

General Advice: : Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous

area.

Eyes: Flush skin with running water for at least fifteen minutes. Remove any contact lenses. Get medical aid/

attention immediately. Continue to rinse eyes during transport to the hospital.

Skin : Remove contaminated clothing. Wash skin with plenty of running water and soap. Take victim

immediately to the hospital. Consult a physician.

Ingestion: If the product is swallowed, first rinse mouth. Give small amount of water to drink. Call doctor/

physician/poison center immediately. Do not induce vomiting. Never give anything by mouth to an unconscious person. If a person vomits, place him/her in recovery position so the vomit does not enter

lungs.

Inhalation: If safe to do so, remove individual from further exposure. Keep warm and at rest. If breathing has

ceased, give artificial respiration. Do not give mouth to mouth resuscitation. Get medical attention/

consult a physician immediately.

Note to Physician : Treat symptomatically.

PPE for first responders: Gloves and safety goggles are highly recommended.

5. Fire Fighting Measures:

Flash Point ($^{\circ}$ C) :>200 $^{\circ}$ F

Flammable Limits : Not flammable
Auto ignition Temp. : Not applicable.

Decomposition Temp. : No data available.

General Hazard : Evacuate personnel downwind in-order to avoid inhalation of irritating and/or harmful fumes and

smoke.

Extinguishing Media: Water spray, chemical-type foam, carbon dioxide. Appropriate for the surrounding area. **Do not use**

water jet .

Hazardous Decomposition

Products: Oxides of carbon may be evolved during fires.

Fire Fighting Procedures: This product is a non-flammable substance. However, hazardous decomposition and combustion

products such as carbon and sulfur oxides can be formed if product is burning. Material can splatter

above 100C/212F.Cool exposed containers with water Spray to prevent over heating.

Fire Fighting Equipment: Respiratory and eye protection are required for fire fighting personnel. Full protective equipment

(bunker gear) and self-contained breathing apparatus (SCBA) should be used for all indoor fires and any significant outdoor fires. Evacuate area and fight fire from safe distance or a protected location. Move fire-exposed containers, if allowable without sacrificing the safety of others and firefighters. If possible

without risk, firefighters should control run-off water to prevent environmental contamination.

Sensitivity to Static Discharge: Not sensitive.

Sensitivity to Mechanical Impact: Not sensitive.

6. Accidental Release Measures:

Protective Gear for Personnel:

For Small Spill: Safety glasses or chemical splash goggles, chemically resistant gloves (rubber/latex), chemically

resistant boots, and any appropriate body protection to minimize direct contact to the skin.

For Large Spill: Triple gloves (rubber and nitrile over latex), chemical resistant suit, boots, hard hat, full face mask/an air

purifying respirator (NIOSH approved). Self contained breathing apparatus must be worn in situations where fumigant gas generation and low oxygen levels are a consequence of contamination from the

leak

Spill Clean-up Procedures:

For Small Spill: In the event of a small spill, the leak should be contained with an absorbent pad and placed in a properly

labeled waste disposal container immediately. Clean the spill area with water. Do not let chemical/waste

enter the environment

For Large Spill: In the event of a large spill, contain the spill immediately and dispose according to state, federal, and

local hazardous waste regulation. Do not let chemical/waste enter the environment.

Environmental Precaution:

Water spill: use appropriate containment to avoid run off or release to sewer or other waterways.

Land spill : use appropriate containment to avoid run off or release to ground.

General precaution : remove containers of strong acid and alkali from the release area.

Release Notes: If spill could potentially enter any waterway, including intermittent dry creeks, contact local authorities.

7. Handling and Storage:

Handling : Avoid contact with eyes, skin, and clothing. Use appropriate personal protective equipment as specified

in Section 8. Handle in a well-ventilated area. Handle in a manner consistent with good industrial/manufacturing techniques and practices. Wash hands thoroughly with soap and water after use. Remove contaminated clothing and protective equipment before entering eating areas. Keep away from sources of ignition. Do not expose containers to open flame, excessive heat, or direct sunlight. Wash clothing

before reuse and decontaminate or discard contaminated shoes.

Storage : Store in a cool, dry well-ventilated area. Keep containers closed when not in use. Keep product isolated

from incompatible materials/conditions such as freezing temperatures. Empty containers retain vapor and material residue. Observe all recommended safety precautions until container is cleaned,

reconditioned or destroyed. Recommended storage temperature is below 35°C (95°F).

8. Exposure Controls and Personal Protection:

Engineering Controls: Use appropriate engineering controls to avoid contact with skin, eyes, and clothing. Wash hands before

breaks and immediately after handling the product.

Personal Protective Equipment:

Eyes and face: Tightly fitting safety goggles. Face shield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH.

Skin: Avoid direct contact with skin. Wear rubber gloves, apron, boots or whole bodysuit when handling this product.

Respiratory: Avoid breathing vapors or mist. Where risk assessment shows air-purifying respirators are appropriate, use full-face respirator with multi-purpose combination respirator cartridges as a back up to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH.

Work Hygienic Practices: Facilities storing or using this material should be equipped with emergency eyewash, and a safety shower. Good personal hygiene practices should always be followed.

Control of Environmental

Exposure :Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the

environment must be avoided.

8. Exposure Controls and Personal Protection:

Exposure Limits:

Component:	OSHA STEL	OSHA PEL	ACGIH TLV	ACGIH STEL
Polyacrylic Acid 50% Liquid	N/A	N/A	N/A	N/A

9. Chemical and Physical Properties:

: No data available Appearance : Liquid **Decomposition Temp.** : Not available Odor : Acrid **Evaporation Rate** Odor threshold : Not available **Flammability** : Not flammable Color : Colorless to slightly yellow **Upper Explosive Limit**: Not available pH (1% Solution) : 12.0 - 14.0 Vapor Pressure : Not available **Melting Point** : Not available **Vapor Density** : No data available **Freezing Point** : 32°F **Specific Gravity** : 1.200 - 1.350 **Boiling Range** $:>212^{\circ}F$ **Solubility** : Soluble in water

Flash Point :> 200°F Viscosity (mPas): 100 - 300 cps

10. Stability and Reactivity:

Stability : The product is stable under normal ambient conditions of temperature and pressure.

Polymerization: Polymerization will not occur

Materials to Avoid : Strong bases (causes chemical oxidation of the drug) Strong oxidizing agents.

Hazardous

Decomposition Products: Combustion will produce carbon dioxide and, possible toxic chemicals such as carbon monoxide.

Thermal decomposition may produce carbon oxides and other toxic compounds.

Incompatible Materials: There are no known materials which are incompatible with this product

Conditions to Avoid : Avoid extreme temperatures. Protect from freezing.

11. Toxicological Information:

Acute Toxicity:

Oral LD₅₀ : 2,500 mg/kg (Rat)
Dermal LD₅₀ : No data available
Inhalation LD₅₀ : No data available

Corrosion/Irritation:

Skin : No data available Eyes : No data available

Sensitization:

Respiratory : No data available. Skin : No data available.

Carcinogenicity:

IARC: Group 3: Not classifiable as to its carcinogenicity to humans (Poly(acrylic acid))

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed human carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed human carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed human carcinogen by OSHA.

Mutagenicity : No data available.
Reproductive Effects
Teratogenic Effects : No data available.
: No data available.

Routes of Exposure : Skin, Inhalation.; Ingestion

Target Organs : Gastrointestinal tract; Mucous membranes

Long Term Exposure Health Effects:

Eyes : Can cause severe irritation to the eyes if exposure if prolonged.

Skin : Can cause significant irritation if exposure is prolonged.

Inhalation : Minimal respiratory tract irritation may occur with exposure to a large amount of material. Material is

extremely destructive to the tissue of the mucous membranes and upper respiratory tract.

Ingestion : Aspiration hazard: Harmful or fatal if swallowed

12. Ecological Information:

All work practices must be aimed at eliminating environmental contamination.

Biodegradability : No data available.

Bioaccumulative

Potential : No data available.

Terrestrial Ecotoxicity: This material may be harmful or fatal to contaminated plants or animals,

especially if large volumes are released into the environments.

Aquatic Ecotoxicity : This material may be harmful or fatal to the aquatic environments if large volumes are released.

Aquatic Invertebrates: No data available.

Mobility in Soil: No data available.

Other Adverse Effects: No data available.

13. Disposal Considerations:

Disposal Method : Dispose of waste at an appropriate waste disposal facility according to current applicable laws and

regulations.

For Large Spills : Contain material and call local authorities for emergency assistance.

Product Disposal : Dispose of at a supervised incineration facility or an appropriate waste disposal facility according to

current applicable local, state and federal laws, regulations and product characteristics at time of

disposal.

Empty Container: Contaminated container should be labeled and disposed in accordance to local, state and federal laws and

regulations.

General Comments: Refer to section 6, accidental release measures for additional information.

14. Transport Information:

Regulatory Information	UN No.	Proper Shipping Name	UN Class	Packing Group	Labels
US DOT	None	Not Regulated	None		None
IMDG	None	Not Regulated	None		None
IATA	None	Not Regulated	None		None

15. Regulatory Information:

U.S. Federal Regulations:

TSCA Status: All components of this product are in compliance with TSCA

CERCLA Section 103 (40 CFR 302.4): Potassium hydroxide, 1,000 lbs (50,000 lbs product)

Section 311/312 Categorizations (40 CFR 370): Acute Health Hazards

SARA Section 313: No components of this products are listed.

California Prop 65: No components listed.

RCRA hazardous waster no: D002

behather Informatione MOVE THIS PRODUCT LABEL (or equivalent wording).

HMIS and NFPA Rating Scale:

HMIS: Hazardous Materials Identification System

Numeric Scale for Health (Blue), Flammability (Red), and Physical Hazard (Yellow):

HMIS Rating:*

HEALTH	2
FLAMMABILITY	0
PHYSICAL HAZARD	0
PERSONAL PROTECTION	D

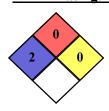

RATING	HEALTH	FIRE HAZARD	PHYSICAL HAZARD
0	No significant risk to health	Will not burn	Product stable under ambient temperature and condition.
1	Can cause irritation or minor reversible	Must be preheated to burn	Product can become unstable at high temperatures and pressures.
2	Can cause tempo- rary or residual injury	Ignites when moderate- ly heated	Product can become unstable and cause violent chemical reaction at normal pressures and temperatures
3	Can cause serious injury	Ignition occurs at nor- mal temperature	Product capable of forming explosive mixtures and is capable of detonation in presence of strong initiating
4	Can be lethal from single or repeated exposure.	Extremely flammable	Product is highly explosive and unstable. Exothermic reactions possible with decomposition, polymerization, reaction with water or self reaction

Personal Protection Code D: Face Shield, Safety Goggles, Gloves, & Apron

NFPA: National Fire Protection Association

Numeric Scale for Health (Blue), Fire Hazard (Red), and Reactivity (Yellow):

NFPA Rating:*

RATING	HEALTH	FIRE HAZARD	REACTIVITY
0	Minimal Hazard	Will not burn	Normally Stable
1	Can cause signifi- cant irritation	Must be preheated to burn	Unstable at high temperatures
2	Can cause tempo- rary incapacitation or residual injury	Ignites when moder- ately heated	Normally unstable. Can readily go under violent chemical reaction but do not detonate.
3	Can cause perma- nent injury.	Ignition occurs at nor- mal temperature	Capable of detonation, or of explosive reaction, but requires a strong ignition source.
4	Can be lethal.	Extremely flammable	May explode at normal temperatures and pressures
